

About Us

Here at JG Innovations Inc., we're real people with real solutions for your concealment needs. As a marketplace leader in the interior steel soffit products, we possess the expertise required to efficiently handle your unique piping and mechanical enclosure specifications. Beginning with free design aid and competitive budgetary quotes, JG Innovations delivers the commitment necessary to take your next project from conception to completion. Our clients can expect to receive the quality-fabricated and powder coated, interior soffit system required to get the job done right and on time.

Staffed with licensed, professional engineers and skilled tradesmen, JG Innovations is also a reliable partner you can trust for your speciality engineered fabrications. Provided with a copy of your shop drawings, we guarantee nothing less than precision craftsmanship in a timely manner. We are a detailed-oriented company equipped with the resources to handle even the most complex of architectural products. From column wrapping to escalator panels, JG Innovations' extensive experience with sheet metal and aluminum provides the solutions your job requires. Please contact our sales team toll-free at 1-888-933-2248 or email sales@JGIUS.com for further information.

Choose JG Innovations as the fabrication source for your next project. We go to work for you....

Security Soffits

"Putting your Mechanicals on Lock-Down."

As the popular adage goes, “The best defense is a good offense”. At JG Innovations Inc., we recognize that the ability to prevent strikes against your facility’s life safety and mechanical systems is essential for maintaining the upper hand. When you need the surety of 24/7 armament, select our ‘Enforcer’ Security Soffits to buffer susceptible mechanicals from assault.

Safeguarding your exposed mechanicals with our resilient ‘Enforcer’ line strategically gives you the advantage by preventing damages, tampering or placement of hidden contraband around-the-clock. Constructed to withstand the most rugged of environments, ‘Enforcer’ Security Soffits steadily harbor any combination of exposed Fire Sprinkler, Plumbing and Hydronic Piping, HVAC or Electrical Systems.

Varied facility configurations can generate the potential for multiple soffit silhouettes. JG Innovations arms you with the fit-fortified ‘Enforcer’ soffit system required by supplying the following common profiles:

- L-Shield
- J-Shield
- U-Shield
- Bow-Shield
- Slope Top-Shield
- Soft Edge-Shield

...along with custom requests!

When you defend your vulnerable mechanicals with ‘Enforcer’ Security Soffits, we equip you with the fully-customized enclosure shield necessitated by your facility. While finishes such as paintgrip (unfinished Zinc-Galvanneal dipped steel), primed and powder coated whites are typically selected, custom color options are also available. Not quite what you’re looking for? The ‘Enforcer’ line is offered in a reflective stainless steel option as well.

Protecting combinations of industrial grade mechanical systems demand flexibility without compromising durability. Our ‘Enforcer’ Security Soffits provide just that. Rather than force you into a few limited sizes, JG Innovations fabricates our interior soffit systems in the exact dimensions your project calls for. Equipped with your mechanical’s dimensions, we deliver your made-to-order ‘Enforcer’ Security Soffits within 2-3 weeks nationwide. Entrusting ‘Enforcer’ soffits to keep watch of your mechanicals certifies they’ll be shielded with stoic appeal.

Does your facility require a fail-safe method to ‘Enforce’ protection of life safety and mechanical systems? Enlist our sales team by calling **1-888-933-2248** or email sales@JGIUS.com for further details.
